BULLETIN

OF THE

BUREAU OF BIO-TECHNOLOGY

VOLUME II.—1923-27.

(Nos. 9 to 16.)

IMPERIAL BUREAU OF MYCOLOGY

Containing

Articles and Notes Illustrated with Ten Plates, Thirty-Nine Photographs and Five Tables

by

THE DIRECTORS AND STAFF

OF

MURPHY & SON, LIMITED,

The Cedars Laboratories, Sheen Lane, Mortlake, London, S.W 14.
The Bureau of Bio-Technology, Buckingham House,
41, Headingley Lane, Leeds.
Old Basford Mills, Basford, Nottingham.

INDEX TO VOLUME II.

PAGE

Abnormal flavours in beer ... 170, 171
Absorption of odours by beer... ... 165
Acetifying bacteria 75, 76, 77
Acetobacter 59, 77
Acetobacter aceti 76
„ *acetigenus* 76
„ *acetosus* 76
„ *ascendens* 76
„ *industrius* 76
„ *kützingingianus* 76
„ *lindneri* 76
„ *oxydans* 76
„ *pasteurianus* 76
„ *xylinus* 76
Acidity, alkalinity and reaction ... 148
Ammonium polysulphide solutions 129, 130
Aphids, Control of 30, 31
Aphis, Effect of Mortegg on 189
Aphis, Woolly 30
Apples, Effect of winter washing on... 191
Apple sucker 30
Arsenate of lead 97
Aspergillus carbonarius 36, 38
„ *cinnamomeus* 38
„ *ficuum* 38
„ *fuscus* 36
„ *nanus* 36
„ *niger* 35, 36, 37, 38
„ *ochraceus* 37
„ *phoenicis* 38
„ *pulverulentus* 38
„ *schiemanni* 38
„ *violaceo-fuscus* 37
Asphyxiants and fumigants 28

Bacillus anthracis 136
B. fluorescens liquifaciens 136
B. lactis aerogenes 135
B. prodigiosus 135
B. pseudodiphtheriæ 135, 136
B. subtilis 135
B. typhosus 135
Bacterium aceti 75
B. mycoides 76
B. pasteurianum 75
B. xylinum 75
Barley and malt, The red mould of ... 78
Barnet colour standards 5
Bed bugs 91
Beer, Absorption of odours by ... 165, 171
Beer with minimum preservatives, Production of 138, 143
Beetle paste on beer, Effect of ... 169
Benzole on beer, Effect of 169
Biotec comparator 3, 4, 5, 6
Bleaching powder on beer, Effect of 169
Brewery flies 87, 90
Brewing water, pH values of 157
Brom-chlor-phenol blue, Sensitive range of 154
Brom-cresol green, Sensitive range of 154
Brom-cresol purple, Sensitive range of 154
Brom-phenol blue, Sensitive range of 154
Brom-phenol red, Sensitive range of... 154
Brom-thymol blue, Sensitive range of 154
Buffer action 152, 153
Buffer mixtures 159, 161
Bulb growing, Soil sterilization for ... 124

Capsid bug, Control of 193
Carbon disulphide on beer, Effect of 169
Carbolineum washes for winter spraying 185
Ceratostomella pilifera 53
Cherries, Winter washing of 195
Chlorine on beer, Effect of 169
Cimex lectularius 91
Cladosporium fulvum 26
Clostridium butyricum 59
Coal mines, The occurrence of fungi in 41
Coal tar disinfectant on beer, Effect of 169
Coke oven fumes on beer, Effect of... 171
Colour changes of indicators 154

INDEX—*continued.*

PAGE

Comparator, Biotec colourimetric method of determining H.I.C. 3, 4, 5, 6, 156
Coniophora cerebella 8
Coniophora puteana 51, 53
Contact washes 28
Copper wort, pH values of 158
Cresol-red, Sensitive range of 154

Damsons, Effect of winter washing on 193
Destruction of timber in mines ... 44
Determination of pH values 153
Deterrents (Insect) 28
Diaporthe perniciosa 182
Drosophila ampelophila 88
„ *funebris* 89
„ *fenestrarum* 89
„ *melanogaster* 89
Dry dusting... 22
Dry rot 55

Eelworms (Tylenchus) 124
Effects of fungi on pit timbers 41, 56
Emulsified oils as ovicides 105, 106, 107
Ephestia kühniella 183
Eubacteriales 76
Eurotium herbariorum 53
Examination of bacteria in beer deposits 57, 75, 113

***F**annia scalaris* 87
Fermentation industries ... 57, 74, 112
Fermentation, Changes of pH during 158
Fly, White 24
Fomes annosus 51
Flies in the brewery 87, 90
Fruits, Winter spraying of miscellaneous 195
Fumigation of commercial glass-houses 21
Fumigating with volatile hydrocarbons 25
Fungi imperfecti 41, 56
Fungi in coal mines 41, 56

PAGE

Fungoid diseases, Suppression of 21, 68, 72
Fungus of dry rot 53
Fusarium species 20, 81, 82, 83, 84, 85

Gas tar on beer, Effect of 169
Giant wood wasp 179
Gillespie's colour standards 5
Gram's stain 58
Gooseberries, Winter washing of ... 195
Green fly 26
Greenhouse grasshopper 32

H.I.C. 3, 144, 161
Hop-Back wort, pH values of ... 64, 72
Hypholoma sublateritium 45, 46
Hydrocarbons, Fumigating with volatile 25
Hydrogen ion concentration 147
Hypochlorites on beer, Effect of ... 170

Indicators applicable to brewing operations 155, 156, 157
Indicators (pH) 153, 154, 155, 156, 157, 158
Importations of pit props and pit wood 42
Insecticide, A combined 27
Insect pests and fungoid diseases, The suppression of 21, 68, 91, 96
Insect *versus* power 183

Khapra beetle 113, 117
Khapra beetle in British maltings 118, 119, 120, 121, 122, 123
Kauri pine, Insect damage to ... 179, 182

Lactobacillus 59, 62
Leather industries, Micro-organisms in the 33, 38
Lenzites saepiaria 8, 16, 18

INDEX—*continued.*

PAGE

Malt, The red mould of barley and... 78
Mashing operations, pH value in ... 158
Medalia's colour standards 5
Mediterranean flour moth 183
Merulius lacrymans 46, 49, 53
Micrococcus pyogenes 136
Micro-organisms in the leather industries 33, 38
Mineral naphtha on beer, Effect of ... 169
Mining and timber trades 41
Mine timber, Fungi on 51
Monilia candida, An unusual growth-form of 177
Mortegg, Official tests of 189, 190, 191, 192, 193
Mortegg, Directions for using 195
Mouldy flavour and odour in beer 166, 169
Musca domestica 87
Mycelial growths on pit timbers ... 50

Narcotics, Insect 28
Neutrality (H.I.C.) 149, 150
Nicotine petroleum emulsion 27
Nitrobacteriaceæ Tables II and III 77

Occurrence and effects of wood-destroying fungi in coal mines ... 41
Odours by beer, The absorption of ... 165
Oidium lactis 136
Ovicides, The use of emulsified oils as 105, 107

Partial soil sterilization of bulb growing 124
Pear sucker, Apple and 30
Pediococcus 59, 61, 62
Penicillium expansum 20
pH, Determination of 5
pH, The expression of 150, 151
pH values and the use of the comparator in brewing ... 144, 159, 161

PAGE

pH values, The determination of ... 153
Phellinus cryptarum 8, 9
Phenol red, Sensitive range of 154
Phenol-phthalein, Sensitive range of 154
Pit props attacked by fungi 50
Pit props and pit wood, Importations of 42
Pit prop, *Hypholoma sublateritium* on a 45, 46, 47
Plesiocoris rugicollis, Control of ... 193
Plums, Effect of winter washing on... 193
Psylla by nicotine petroleum emulsion, Control of 31
Pressure on yeast cells, The effect of 133
Production of sound beer with the minimum of preservative ... 138, 143

Reaction, Chemical 148, 149
Red currants, Winter washing of ... 195
Red mould of barley and malt ... 78
Red spider on cucumbers ... 30, 31

***S**accharomyces cerevisiæ* 135, 136
S. albicans 135
Salicylic acid 140
Sarcina 59, 61, 62
Schizomycetes—Table I 77
Soil sterilization for bulb growing, A preliminary note on partial ... 124
Sound beer with the minimum preservative, Production of 138
Spiders, Red 30, 31
Sporocide disinfectant 19, 20
Spraying, Winter 185
Staining bacteria 59
Staphyloccus 59, 61
Sterigmatocystis niger 35, 36, 37
Stomach poisons for insects 28
Stomoxys calcitrans 87
Streptococcus 59, 61, 62
S. lacticus 135

PAGE

Sulphuretted hydrogen on beer, Effect of 169
Superol 56
Sweetening casks, An old recipe for 171
Suppression of insect pests and fungoid diseases 91

Tachycines asynamorus, A further note on the carnivorous habits of ... 108
Temperatures, Spraying 24
Timber, The decay of structural ... 7
Timber in mines, Destruction of ... 44
Timber trades and mining 41
Thymol-blue, Sensitive range of ... 154
Tomatoes, Control of white fly on 24, 25
Trametes carneus 51, 52
Tricothecium roseum 53
Trogoderma khapra in British maltings 118, 119, 120, 121, 122, 123

PAGE

Tylenchus 124
Turpentine on beer, Effect of ... 169

Universal indicator 156, 157

Vinegar fly 88

Water softening for spraying purposes 64, 65, 66
White fly on hops 127, 128
Wild yeasts in water drippings ... 184
Winter spraying 185
Winter moth, Effect of Mortegg on... 190
Wood-destroying fungi in coal mines 41
Wood preservatives 56

Yeast cells, The effect of pressure on 133

CONTENTS.

	Page
The "Biotec" Comparator	3
The Decay of Structural Timber	7
The Suppression of Insect Pests and Fungoid Diseases	21
Nicotine Petroleum Emulsion	27
Notes	32
Micro-Organisms in the Leather Industries	33
The Occurrence and Effects of Wood-destroying Fungi in Coal Mines	41
The Examination of Bacteria in Beer Deposits	57
Water Softening for Spraying Purposes	64
The Suppression of Insect Pests and Fungoid Diseases	68
Acetifying Bacteria	75
The Red Mould of Barley and Malt	78
Brewery Flies	87
The Suppression of Insect Pests and Fungoid Diseases	91
Comparison of Three Commercial Brands of Arsenate of Lead ...	97
Use of Emulsified Oils as Ovicides	105
A Further Note on the Carnivorous Habits of *Tachycines asynamorus*	108
The Khapra Beetle	113
The Khapra Beetle in British Maltings	118
A Preliminary Note on Partial Soil Sterilization for Bulb Growing	124
White Fly on Hops	127
The Analysis of Ammonium Polysulphide Solutions	129
The Effect of Pressure on Yeast Cells with some Remarks thereon	133
The Production of Sound Beer with the minimum Preservative...	138
pH Values and the use of the Comparator in Brewing	144
On the Absorption of Odours by Beer	165
An Old Recipe for Sweetening Casks	171
A Transit Tube for Yeast Samples	173
An Experimental Brewing Plant	174
An Unusual Growth-form of *Monilia candida* in a Brewery...	177
Notes	179
Carbolineum Washes for Winter Spraying	185
